Repeat A & B 5 more times through. After last turn, **add one Stomp**.

DIRECTIONS FOR CIRCLES:

First time through, dancers move LOD. After the 3/4 turn they face in and join hands. Keep hands joined while facing in. On next 3/4 turn they'll face RLOD and on the fourth one, they'll face out. Join hands while facing out, also. Repeat for a total of 6 times through, but on the 6th time turn all the way around so that dancers end facing in and then add the last Stomp.

DIRECTIONS FOR LINES:

Dancers should be lined up evenly and close enough so they can reach the hands of those next to them. The second line should be lined up evenly behind the first, as well as the third, etc. The first time through the dance, dancers hold hands with those next to them in the same line and dance the sequence facing front. On the 3/4 turn they'll drop hands and face the wall that was to their left. They then rejoin hands with people in their new lines (who were in front or behind them originally). Each time the dancers turn, they'll join hands in new lines. Dancers will end facing the back to do the last Stomp.
